## FINANCIAL DRIVE FOR THE HALL

Appeal for \$1,600 is Made.  
UNTIL THURSDAY  
Deficit to be Met and Association Put on its Feet.

Owing to circumstances no article appeared in yesterday morning's "Daily" with reference to the financial drive for the Student Christian Association, hence there was some slight difficulty in getting the organization into proper function. While no results have yet reached the office of the Association it is practically certain that the objective of sixteen hundred dollars will be reached if not exceeded.

Collectors will be at work in all years of all faculties for the duration of the campaign, and every undergraduate should be approached before Thursday night.

The Association is sadly in need of raising its objective. The work carried out at Strathcona Hall is important, difficult and sometimes expensive; and the mere fact that it is only mentioned to be criticized, and that usually with no and never with sound grounds, does not make the work of the board any easier or any encouraging. The Hall is faced with a frank deficit; the new obligations taken on by the C. E. F. require funds and hard work. The hard work is done willingly by the members of the Association. The funds must come to a degree from the undergraduates.

The S. C. F. is a new thing at McGill. It is unfair to expect perfection of it at first. But it is also decidedly unjust to judge it on grounds of chatter. Its membership is open to anyone who cares to join it seriously. It is anxious to have its work understood, but is not in a position to race around shouting about itself on all and every occasion. Its purpose is serious. If it is to carry on, it must have support and interest.

Other colleges are taking up this movement with enthusiasm. Smaller universities than McGill have poured comparatively large amounts into the National budget. They are seriously tackling the problems of life, and are not afraid to put their money in what they know to be a good thing.

The purpose of this immediate drive is to help Strathcona Hall onto its feet so it can go ahead and carry out to the fullest possible extent its programme of activities for the whole student body, always, of course, keeping in view its broadest aims.

## SEVEN R.V.C. GIRLS TO GO TO TORONTO

Lucky Winners of Pool to Make Journey.

A meeting of the R. V. C. Undergraduate Society was held in the Common Room yesterday at 5 P. M. Miss Feed's resignation on the Tea Committee was read and accepted. Miss McEwan was appointed in her place.

The real business of the meeting was to decide whether a representation should be sent to Toronto from the R. V. C. to support the team in their game with Varsity this Saturday. It was decided that seven girls should be sent, a pool being formed for this purpose, in which each member should contribute 75cts.

Any girls unable to pay all their own expenses were asked to give their names in by Wednesday evening. It was also decided that a number of the girls should go down to the station on Friday night to see the team off, also that, if any girl drawing in two pools should happen to get the lucky number in each, she should be allowed to hand over her ticket to a friend, provided that she be an R. V. C. student.

Miss Price, Vice President of the Historical Club, was introduced by Miss Birkett. She spoke to the students about the aim and membership of the club, and extended a cordial invitation to all honour students in History or any taking majors in that subject, to meet with the Historical Club, on Tuesday evening in the Faculty Room of the R. V. C.

It is hoped that as many as possible will take advantage of the splendid opportunities which this thriving little club offers. The membership is limited, so all those hoping to join should not fail to be present at this open meeting.

"One way she's like an umpire, my wife is," said Bill Prout.

"She never will believe that I am safe when I am out."

## JUNIORS, ATTENTION!

All Juniors who wish to attend the Junior Dance must hand in their names to their class representatives not later than Tuesday noon. They are requested to remember that this signing up will be in the nature of a promise, and each man signing will be held responsible for a ticket. These will be about six dollars a couple.

There will be a very important meeting of the Committee to-day, at 5 o'clock, in Room A, Strathcona Hall.

## LAST DAY FOR NOMINATIONS

Nominations for Union House Committee Close To-night.

All nominations for representatives to the Union House Committee must be in the hands of the Secretary of the Union by six o'clock tonight. Lists that are not complete are to be finished today and entered in tonight.

Two representatives from each faculty are elected to this important board. This committee has charge of the McGill Informal Dances and many other activities carried on at the Union.

It is expected that interest will be great in the elections which will be held on Thursday. From the nomination lists in circulation in the different faculties some excellent men will be in the running and competition will be keen. The newly elected committee will begin their term of office next Friday.

## MEDICALS HAVE THE PRIZE IDEA

Are Going to Toronto in Box-Car to See Big Game

Many students are determined to go to Toronto for the game next Saturday if they have to walk there. Various plans have been evolved by active brains whereby groups could be transported to the scene of the contest but the prize plan was announced by a group of enthusiastic medicals yesterday.

According to their plans they will hire a box car and apportion out lots to as many as can be accommodated within the space. They argue that they can secure accommodation on a fast freight at a very reasonable rate and will be able to carry a great number of students to Toronto very cheaply.

Just how comfortable the trip would be is a question but it seems that comfort forms a very small part of the trip outlined by the organizers. Already there has been a great rush of students inquiring about the proposed trip and last night numerous calls came to the "Daily" office by men who desired to secure early reservations.

Just what view the railways will take when they are approached is not yet known but there will be many disappointed students if the plan falls through.

Prof. A fool can ask a question that ten wise men could not answer. Senior: Then I suppose, that's why so many of us are plucked.

## CONVERSAT. TO-MORROW NIGHT 8 P.M.

One of McGill's Most Important Events.

### STRATHCONA HALL

Large Crowd of R. V. C. to Be Present.

The Conversat, one of the most important events of the College year will be held this session as usual in the Strathcona Hall tomorrow night at 8.00 P. M. The object of this event is to bring together the male and female students of the University.

The evening should appeal strongest to the Freshman, who knowing no one here, has this opportunity of making friends with his co-students.

The Conversat is very informal and all the students of McGill and the R. V. C., are cordially invited by the committee.

In case any of the newcomers are not aware of the plan of the party and the method of entertainment a few words are necessary in explanation. The evening is put on under the auspices of the Strathcona Hall Committee and a programme of conversats is arranged.

On entering the hall each person is given a card on which he or she writes their names and year. This card they pin on them for identification. They are then given a card resembling a dance programme. The men then approach the young ladies and ask them for a number on the programme. Then instead of dancing one talks to his partner and in this way everyone becomes acquainted. One number is marked Supper and after this one supper is served. Of course two consecutive periods must not be taken with the same persons no matter how "struck" either of them may be. After the conversat each young man is expected to see a young lady home.

The R. V. C. are to be out in full force and all those who were fortunate enough to attend the affair last year will vouch for the statement that it was a fine evening and that they are glad that they were there. While a large number of freshmen and freshettes are expected still many of the Sophs who were "lucky" last year will be out again tomorrow night. The Mandolin Club will provide the music for the evening.

The conversat starts promptly at 8.00 P. M., at the Strathcona Hall. Do not be afraid to enter the building. There will be someone there to give you all the necessary directions and to make

## FRASER NOW ON LALANNE'S WORK

Lalanne Will Handle Only Finances After This

Charles Fraser will handle all of the secretarial work of the Student's Council in the future. The work has been handled for a few years past by Jimmy Lalanne but he signified his intention of retiring some time ago. The work of transferring the burden of the student's business from one man to another has taken some time but has at last been accomplished and Fraser will do all of the work with which the students are personally concerned.

Lalanne will still remain with the Council for some time but his duties will be confined to looking after the students' finances. As this is a great amount of work in itself he will not have anything to do with the students who call at the secretary's office but will leave it entirely to Fraser.

Some trouble has been experienced at the office by students who find it hard to realize that Lalanne no longer is acting in his former position. They frequently insist that they should see the former secretary about matters with which he has no concern at the present time. For the future Lalanne will not handle any secretarial matters whatever and everyone having matters to settle at the office will save themselves trouble by asking for Fraser at once.

## TICKETS FOR SYRACUSE GAME NOW ON SALE

Tickets for the Syracuse game are not being sold at the wicket to the office of the Students' Council. All of the pasteboards have been placed in the hands of the hall porter in the Union and those desiring them would save themselves and the office staff trouble by going directly to the porter to secure them.

## WHAT WE OWE.

### Duty!

The word itself is probably very familiar to all of us. We see it printed in the newspapers of the country day after day, so often in fact that we are apt to lose sight of its significance. Its value is so often used and converted for private party ends by enterprising politicians that many of us come to think that it has none.

But what graver error could we make than to lose sight of one of the things most sacred in the life of a human being?

One dictionary defines duty as an obligation, as signifying anything one is obliged to perform. But it goes beyond those narrow limits. It also signifies many of those indefinable moral and social acts which, although not forced or obliged to perform, yet we are led to do urged on by a sense of conscience. We have a duty to ourselves, too. But the greatest and most pressing of our earthly duties is to society.

What do we mean by society? The world at large, our fellow-men, and to come closer to home, our fellow-students. Each one of us owes an obligation to every other one. That obligation is one of taking an intelligent interest in his affairs as they relate to the students as a whole, of following all proceedings carefully to safeguard his as well as your own interests by having a deep and thorough knowledge of all college happenings, of backing up heartily all undertakings which have met with the approval of the student body.

Unfortunately, whether we all recognize this duty or not, we certainly do not show it. True, when it comes to a football game or a hockey match, we are more than willing to help out by cheering the team, winning or losing. But this does not arise from any altruistic motives rather from a desire for a little excitement and a love for sport. It is at the much less interesting meetings of the various student organizations that one can pick out those who love their college best and are willing to take a little trouble in order to have things run properly. They are the ones who see their duty to McGill and to their classmates.

Duty is ever present. One might say, ever waiting to be performed. Let us waken up to it by taking a much greater and whole-hearted interest in our college affairs. Let each man seize the duty lying near at hand and do it.

## INTERFACULTY FOOTBALL.

As a branch of university athletic activity interfaculty football cannot have too much attention devoted to it. It affords men who are unable to play on any of the three teams representing McGill in her struggles against other universities, either from lack of ability, or want of time, an excellent opportunity to become well acquainted with the game, developing the latent talent which often lies hidden and unknown even by its very possessor. Moreover it affords also a chance for the physical exercise so necessary to perfect health in students, and for the men of the first two years offers an attractive alternative to two hours a week in the gymnasium.

In past years the standard of interfaculty football has been particularly high, especially last season, when many highly exciting contests were staged on the old campus, and were the means of revealing many embryonic players, some at least of whom will one day be playing with the seniors. So far this season the interest taken has been even greater. The men of the various faculties have been turning out regularly and often in an endeavor to secure for themselves the championship cup. The teams are very evenly matched, and some really excellent playing has resulted. If play of so high a calibre is kept up for the remainder of this year and in the years to come McGill will have an unrivalled preparatory school for training men to play on the main teams.

## EDITORIAL NOTE.

To-morrow, at 5.15, will be held a meeting of the McGill Athletic Association, open to the whole student body. Last week the pitifully small attendance at the Student Society annual meeting was the subject of a lot of justified criticism. It is the duty of the student body to see that such a condition of affairs does not occur again. A full attendance is requested to-morrow.

## SONG BOOK SALE WILL END TO-DAY

Class Collector Will Report at Five-Thirty.

To-day is the last day when it will be possible to buy a copy of the new Song Book from the various class representatives entrusted with its sale. They will report to the Song Book Committee in the Union at 5.30 this afternoon.

All arrangements have been made for a speedy transmission of their copies of the book to all the subscribers. The balance will be sent up to the various buildings as fast as the money comes in from the collectors.

The almost unanimous response to the appeals of the various class collectors, would indicate that the two thousand or so copies left from the sale to the Graduates at the Re-union will soon be disposed of.

## PUBLICATION BY MCGILL GRADUATE

Mr. and Mrs. E. J. Woodhouse Write Book

Mrs E. J. Woodhouse (M. Chase Goring) of class '12 and M. A. of the Department of Economics and Sociology Smith College, with her husband, Mr. Edward James Woodhouse of the Department of History and Government, Smith College, and sometime of the Department of History of Yale, have lately published jointly a work entitled "Italy and the Yugoslavs". This book explains the historical background and traces carefully the course of a dispute which almost wrecked the Peace Conference.

The authors have shown the economic, political and social factors conditioning and determining international relations involved in the Adriatic prob-

## TRACK MEN TURNED OUT WITH HARRIERS

Last night despite the chilly rain which poured down about five o'clock, a good number of enthusiasts turned out with the harrier squad who put in their last practice before the big meet. The group started to cover the full course of five and a half miles which lies over a mountain route, and which is a good proof of a man's endurance.

The presence of several track runners who have not been out with the club owing to their trip to Kingston, greatly added to the interest of the occasion. Viggins, Creelman and Legg were all out and indications point to a close finish in Wednesday's race.

## TOWNSHIPERS MEETING SOON

Strathcona Hall To-morrow, at Five-thirty.

The general meeting, called for last Wednesday, was cancelled on account of the Students' Council Meeting being held the same day. The E. T. executive considered the students' meeting much more important, with regards to our College activities, and deemed it their duty to make the postponement. However, they hope not to be disappointed with this week's meeting, and they wish that every E. T. man will also show some college spirit, by having enough interest in the club, to some to this week's re-union and express his opinion on the various questions, which will be brought up.

Some newcomers seem to think that a general meeting does not include them. That is entirely wrong. A general meeting includes everybody. In other words it is a Re-union—a chance for all E. T. men to get together, to meet old friends and to make new ones, to have a say in all matters which are discussed, and to get on to one of the three committees, which are most necessary and most important. Do not be under the impression that the club is only a certain clique of men, with a selected executive from that faction, who have no interest in the E. T. men as a whole or even in the Student body such an impression is fatal. The club is interested in every man from the Townships, and more than that, it is interested in every other club. All the sectional clubs of McGill know him the old E. T. has introduced and kept up the "friendly invitation" to each others functions.

The executive wish to point out most clearly that the membership fee, which was \$2.00 last year, has been reduced to \$1.00. In previous years, the membership fee was the stumbling block for most men. Surely, this year's fee of \$1.00 will not be a preventive. Another point to be cleared is the question of "what counties does the Eastern Townships comprise?" The club, whether justified or not, takes in all counties on the south side of the St. Lawrence from Beauce to Huntingdon (included). It is also the club's intention to try and get the ladies of the R. V. C. who come from any of the counties included in the above district, to join us and make our gatherings more enjoyable. The executive also wish to state that all the honorary offices of the Club are held by men of very high esteem, such as Sir Walter G. Mitchell, A. J. Brown Esq., K. C., John Hackett Esq., etc.

As was stated in one of the "Daily's" editorials last week, under the name of "Sectional Clubs", it is your duty to make up your mind to join one club at least. Don't you think the E. T. Club should be your choice? You come from the Townships—you are a part of the Club and don't forget it will be a part of you. If you already have chosen a club, why not let the "good old E. T." be your second one. You can afford the time—one evening in an odd while will not deprive you of much. However, do your best to attend this first reunion. There will be free smokes given, which will add to the friendliness, which will exist on Wednesday at 5.15. Don't form your opinion of the club now—come and see for yourself, as was stated before—then you will know for yourself. You are not necessarily going to be robbed of your last dollar. Don't come with that impression. What the club wants is simply your friendship, and with that a great deal can be done. Make up your mind and remember that on Wednesday 26th you will come along with the rest to Strathcona Hall at 5.15 p.m. Just one floor up, turn to your left, and on the right hand side of the hall way, you will find Room "B", Free Smokes and a most friendly group of E. T. men.

## PEPYS AT MCGILL

Monday, Oct. 24th.—All a fever at the colleges and much converse of affairs political, which I am sore put to for their unravelment. Brief it seems there is a certain Mr. Meighan, who is most stubborn in this opposing the King's party, from which I take it he must be of the Whigs, I had a fancy this day to attend a discourse on the philosophies. But being there a while, it troubled me so I could scarce keep from a rudeness, for though the don kept in spirit to the thirty and nine articles of faith of our established church, I cannot but think that he let slip a little in the letter of it. All which would make me to agree with a learned divine, who preached a stern discourse on this very thing these three weeks ago come Sunday; and if I remember rightly his substance was that in such dangerous subjects as the Mathematic Sciences and the like none but duly ordained divines should have licence to speak, and they only whose rigid doctrine had been proved. And so I think it should be with the philosophies. All the talk of my fellows now concerning a Conversat, but what manner of thing it may be I cannot make out. Like as not a carouse with much drinking of strong cordials, I mean to get me a high glossy collar with emerald cravat to match for the occasion, such as I saw certain clerks wearing on the campus not long since. It will likely cause a great flutter, and I mean to show all men that none can beat me as an arbiter of elegance, as the latins named it.

## FIRST INFORMAL ON NOVEMBER 4th.

Tickets on Sale Next Friday at Union.

The first informal dance of the season will be held in the Ball room of the Union on Friday November 4th.

The Informal dances in the past have been great favorites among the graduates and this year they promise to be even better, than before. They start early, 8.15 sharp and will stop at 12.30. Last year the last dance was at Midnight but now the Students council have decided to give an extra half hour of dancing.

The best music possible will be furnished by the 'McGill Dance Orchestra' under the leadership of "Chub" Le Farcn. Trippers of the light fantastic from last year know the quality of the music provided by this orchestra. It is supreme for dancing. Refreshments will be served by the proprietors of the Union Cafeteria. The system of two settings for supper, the same as last year will be used.

The Students' Council feel that Nov. 4th is the best evening for the dance. Many people will remain in town for the week end on account of the Syracuse McGill game.

The tickets for the dance will be on sale at the Union next Friday at 1 P. M. The price this year will be the same as last year \$2.00.

Those who want tickets are reminded that the only way to be sure of getting one is to be in the line at the Union next Friday.

## AT THE THEATRES

### THE ORPHEUM.

'Heart's Desire' at the Orpheum, is a typical Irish comedy, with many mentions of "peaceful" and "happy" Ireland, with no Sinn Fein or Black and Tans to spoil the illusion.

Mr. William Naughton, the matinee idol of the Orpheum, gives a creditable performance, and his songs were a delight. His leading lady, Miss Mary Daniel, is as charming as ever as "Mollie."

The average American playwright has a theory that all Englishmen are stupid, and Mr. Mitchell persists in carrying out this theory. This might be necessary, but we should like to see an Englishman who isn't a "perfect ass." The remainder of the cast is adequate, especially Miss Mary Hill.

The setting would do credit to most road shows.

The plot, while not unusual, has a novel turn, and many incidents are highly amusing. Although it attempts to show the superiority of the Irish over their neighbors, we can forgive this as the play is delightful.

Altogether it is a performance which is worth borrowing money to see.

### THE PRINCESS.

On the whole, this week's bill is one of the best ever, and any would-be scholar who feels particularly flush will consider his money well spent. There are six turns, which are preceded by the Canadian United News, which is a boon to those who consider their studies important enough to prevent them reading the "Star." The first turn, Mrs. Howell performs a clever acrobatic stunt, and her husband almost collects her insurance policy. This is followed by a humorous act with a most elevating setting of a lingerie shop. (Bring your opera glasses.) "Next appear" two smiling youths, who sing like Varsity plays football. Then there appears a would be Kubelik, whose partner either had a tonsillitis, or saw a handsome man in the audience. This, however, is followed by an actor who well entitles him to an honorary degree from McG. After this we are treated to a wee sip of Shakespeare, which is just as appreciable as a glass of beer on the great American desert. From the sublime to the ridiculous, the railroad problems that our governments could not solve, are solved by two chocolate colored porters. In the last act which is entitled La Pilarice Trio. Villa Victoria's dancing might almost be said to rival Pavlova's. The orchestra then plays a delightfully short verse of "God Save the King."

### THE CAPITOL.

Elsie Ferguson is starring at the Capitol this week, in a feature of much more than usual merit. In "Footlights", The theatre has a play which is bound to make a decided hit in Montreal but it might be mentioned in passing that the supporting comedies certainly fail to measure up to the standard set by the headliner. Although the musical programme was obviously enjoyed by the audience.

The theme of "Footlights" is centered around Lizzie Parsons, a young country girl, who, after receiving lessons from her grandmother in the art of acting, departs to the city, and there in the guise of a Russian actress under the assumed name of Lisa Paminova experiences a meteoric rise to gain as an emotionalist artist. The depiction of Lisa Paminova striving to hide her real self ensure her success, is exceptionally fine: her sudden decision to return to the personality of Lizzie Parsons, and the consequent disappearance of the renowned Russian Actress followed by—but then you had better see that for yourself at the Capitol this week.

A New Collar—"THE WHIP."

A real sensible collar two inches high with generous space for tie display. But the beauty of "The Whip" lies in its buttonhole, which is cut a brand new way—a way which will save you time and trouble. Better drop in and see it. Men's separate entrance on Union Avenue.

# RUGGER TEAM OUT TO WIN NEXT CONTEST

Important Committee Named  
at Yesterday's Meeting.

## TEAM OPTIMISTIC

Hope to Turn Tables on Satur-  
day's Victors.

Far from being discouraged by their defeat at Toronto on Saturday, the McGill English Rugby squad are very optimistic about their chances of victory when they meet 'Varsity at the stadium next Saturday.

Hard work-outs are to be held to-day, Wednesday and Thursday in preparation for Saturday's game.

Several changes in the personnel of the team are contemplated. Men who have not yet made a place are expected to turn out to all this week's practices. The following men are especially asked to appear: Cleland, Gooch, Cooper, Robinson, Brown, Blundell, Branch and Whidden.

At an informal meeting of the Club yesterday at the Union Coach (Prof.) Matthews gave some well directed criticism and useful advice.

Fred Bradshaw was elected vice-captain with special jurisdiction over the backs. In preparation for Saturday's game the following committees were appointed: Entertainment Committee: L. Patterson, Don Ramin and J. Anglin; Publicity Committee: Jack Lochead and J. McIntosh.

The following is the line-up for to-day's practice game.

A Team. Full back. Day. Three-quarters. McDougall. Anglin. Solloway. Manson. Gooch. Beardsley. Peacock. Marpole. Reid. Halves. McIntosh. Cooper. A. McIntosh. Bradshaw. Forwards. Budden. Rankin. McLean. Wetmore. Mitchell. Wilson. Patterson. Brown. Lochead. Cleland. Roome. Lawrence. Cartwright. Robinson. Reserves. Tucker. McGoun. Smith. Whidden.

The club is depending on the above men to turn out regardless of weather conditions, in order that the Red and White may be victorious in Saturday's match with 'Varsity. Every man is wanted out at 3:30 p.m., or very soon after that hour. Everybody out!

The semi-finals of the R. V. C. Inter-Class Doubles were played yesterday in a drizzling rain. The players were under a disadvantage, as the courts were soft and the balls heavy.

The first game was played between the Seniors and Juniors, E. Snyder and T. Rough representing the Senior year, and Z. Slack and L. Kerr, the Juniors. Each point was closely contested, but the Seniors obtained the lead early in the game and held it throughout. Miss Slack's serving was very strong, but Miss Snyder and Miss Rough were very steady in both forehand and backhand strokes. The final score was 12-3, for the Seniors.

In the second game, Miss J. Matheson and C. Robertson of Second year, met Miss E. Dunton and L. Desbarats of First year. The freshies showed very good form, and had the better of the Sophomores all through the game. Miss Desbarats played a splendid all-round game, scoring points both from brilliant net strokes, and her well-placed balls.

The serving of all the players was very good. The Freshies won by the score of 5-5, and will meet the Seniors in the Finals, as soon as the weather permits.

## NOVEL STADIUM

Ohio State is to have the largest stadium in the United States. It will cost \$1,000,000, and will be erected in a 92 acre plot on the banks of the Olentangy river near Columbus. The stadium will be named for the state of Ohio. It will be U-shaped unlike most other structures of its kind, and will have two seating levels. It will be 107 feet high, accommodating a crowd of 63,000 people. The boxes alone will accommodate 1,700.

The end of the structure will have a movable stage that may be used for various kinds of outdoor exhibitions. A larger gymnasium, place for holding automobile shows and indoor theatricals will be provided beneath the seats. The end of the horseshoe will be embellished by towers and will open towards America's largest college athletic ground.

# NEW COACH FOR SECOND RUGBY TEAM

Bill Hughes Will be Popular  
Second Squad Leader

## FORMER STAR

Play R.M.C. at Kingston Next  
Saturday.

Bill Hughes, who starred for McGill on the football in the years just previous to the war and later made a reputation for himself when he piloted the M. A. A. team to the Interprovincial championship, will take over the duties of coaching McGill's second team for the remainder of the season.

The new coach will relieve Shaughnessy of a lot of work and will give the intermediate team the attention it deserves. It has been long recognized that one coach was not sufficient to handle the men who turned out on the gridiron up the hill but there has always been the difficulty of securing a man of sufficient ability to prepare the men to move up to the senior squad in their later years.

Hughes will be a popular coach just as he was a popular player and later leader of the McGill rooters in many of their campaigns. As a student of "Shag" he will be teaching the men the methods that will be later used by the head coach.

Yesterday afternoon "Drum" Ross was elected captain of the intermediates. The first game of the intercollegiate series will be played with the Royal Military College team on Saturday next on the home grounds of the cadets. Home and home games will be played with them and the total score will determine the winners of the eastern section of the intercollegiate union. The winners of that section will play off with the western section, which includes all of the colleges situated in the Toronto district.

Chances are very bright for the McGill seconds to carry off the championship this year as there is an unusual number of good men who have not had the necessary experience to catch the seniors but are nevertheless good players.

Workouts will be held for the seconds under the direction of Hughes every day this week. The R. M. C. team is reported to be fast and shifty and has already defeated the Queens intermediates handsily. With the McGill seniors making rapid strides towards the championship the intermediates are trying to follow in their footsteps and some hot games are expected.

# MAISONNEUVE WINS FROM MCGILL TEAM

Many Supporters Watch In-  
termediate Water Polo

Last night in the Maisonneuve swimming tank the McGill Intermediates water polo team met the Maisonneuve aggregation in their second game of the year. The College swimmers had a difficult task before them when the players took to the water. Fresh from their recent victory over La Salle the Red and White met a team, which looks to be of championship calibre. The Maisonneuve club this year are playing their first team in the intermediate league, and look like winners.

McGill began the first quarter defending the goal at the deep end. It soon became evident that the home team were the faster, and better in the shooting department. McKindsey in goal was subjected to an intermittent bombardment, and Maisonneuve chalked up three points at the end of the quarter.

The Red and White after changing ends began displaying better form, and held their opponents scoreless till the half time interval. Score 3-0.

The third period Maisonneuve scored twice, while McGill again found the Mousette, Henderson combination impenetrable. After the final quarter the score stood 7-0 for Maisonneuve, who scored twice in the session.

The result was decisive, and certainly the better team won, though the McGill line-up are to be congratulated on the showing which they put up against a very strong team. Mousette and Neasmith especially are players who would show up well in any senior company, whereas the College men are comparatively new material, who have not been working together as a team till this year.

# WRESTLERS HELD GOOD PRACTICE

Not Enough Men Out for  
Advanced Class.

Yesterday evening the wrestlers held their initial work-out in the ball-room of the Union. The beginners started their practice at about five fifteen. The names of all those who intend to wrestle must be given to Dave McKeen or otherwise they are liable not to get their attendance.

The newcomers at the game were lined up in two ranks and shown some of the elementary holds of wrestling, and how to approach a man. They then practised some of the simpler ones, such as the waist hold and the cross buttock, on each other. Coach Smith looked on and corrected their faults. A fair number turned out, and were, on the whole, a husky looking lot, most of the men being in either the 135lb. or 145lb. class. However, a great many more men are needed out, especially in the heavier weights. Now is the time to turn out and learn something about wrestling, for in a little while it will get too late. If it is at all possible, inter-faculty assault-arms will be held, but if this is to be done more men must be out.

The advanced class started their practice at about quarter past six and after a short talk by Mr. Smith the whole class went onto the mats and commenced by doing a hardening up exercise. Only about twelve turned up in this class. There are surely more men around the college who wrestled last year, and who intend to do so again this year. All these men are asked to come out as soon as possible so they can commence their training properly. After about fifteen minutes or more of exercises the mat artists indulged in short bouts. In a month or two Coach Smith hopes to have the men in good enough condition so that they can wrestle twenty minutes at a stretch without being tired.

Another practice will be held on Wednesday evening at the same hours, and everybody that knows something about wrestling or who would like to learn the game is urged to turn out to the next practice with the necessary equipment.

# MEDICINE IS VICTOR OVER ARTS - LAW

Gordie Webster and Caldwell  
Were Both Carried Off.

SCORE 12-5.

Medicine Had Edge Through  
First Three Quarters

Yesterday afternoon, in a chilling rain, the Medicine Rugby squad whitewashed the Arts and Law combination to the tune of 12 to 5, making their lead of 7 points in the first quarter. A great deal of this may have been due to the inexperience of several of the Arts men, who were out for the first time, and did not even know their signals well.

Medicine had a markedly superior team, heavier and faster and surer of themselves. Their confidence and team play enabled them to go in at the beginning with the idea that they were going to come out on top, and as Arts lacked both qualities at the first part of the game; naturally for a time it was one-sided. Right from the start they forced the lay, netting one rouge, a touch and a convert in the first quarter. Score 7-0.

Throughout the second quarter Medicine kept the edge on the game, but Arts were able to hold them from scoring. It was by no means easy work, and the quarter ended with the murderous Meds. thirsting for blood, scarcely three yards from their objective.

The third quarter showed a decided improvement in the Arts game, but Medicine by no means weakened. The latter scored another touch, bringing the score to 12-0.

It was in this quarter that Gordie Webster was carried off the field, unconscious from a jolt in the head. This capped a blow in the stomach, which had previously made him groggy, but he had gamely kept his place at inside for Arts. Caldwell, of Medicine, was also hurt and carried off the field.

In the last part of the last quarter Arts turned the tables, and pushed Medicine hard. The end saw brilliant plays, especially two fifty yard runs by Pierce, who scored a touch, bringing the score to 12-5.

The line-up was as follows:—  
Arts and Law.

Outsides—Branch and Ogilvie.  
Middle—Eliot and Colin Webster.  
Insides—Hamson and Webster.  
Quarter—Gardiner.  
Scrim—McDermott.  
Backs—Pierce, Chauvin and Falconer.  
Flying Wing—Anderson.  
Spare—Chave.

Medicine.  
Outsides—Chalmers and Fullerton.  
Middles—Stoane and Abey.  
Insides—Schuman and Urquhart.  
Quarter—Roche.  
Backs—Boyle, Grassick and Chemson.  
Flying Wing—MacDonald.  
Spare—Madden, Hamiton.

Union, 5.15—All Club Presi-  
dents Must Be There.

A meeting of the Athletic Association will take place in the Union at 5.15 p.m. sharp to-day.

The Presidents of all athletic clubs are reminded that it is their duty to be present. There is a great deal of very important business to be transacted, and it is essential that every president be on hand. It will also be thrown open to all students.

This meeting will be one of the most important meetings of the year, and will afford a splendid opportunity for any student, who is interested in the administration of the athletic association, to become familiar with its details.

"Dearest, do you know how much I love you?"  
"No, lover, but I know how often!"

# INTERCOLLEGIATE FOOTBALL POPULAR.

The popularity of intercollegiate football as a fall pastime is shown by the rapid increases in the numbers attending the games every year. Since the resumption of sport following the war, the game has increased in popularity until this fall the grounds were packed to capacity notwithstanding the construction of the additional stand.

The paid attendance at the games during the three years was:—

# UNIVERSITY FOR JERUSALEM PLAN

Still Remains a Dream of the  
Future.

"The Jerusalem University is an unfulfilled project, that as yet exists only in the imagination," said Leon Simon when speaking recently at the Sociological Society, Belgrave Road, on "The Hebrew University in Jerusalem."

As early as 1902, Mr. Simon said, Dr. Weizmann had pointed out in a pamphlet the necessity for a Jewish university in view of the restrictions that then prevailed in continental schools against the Jews. His project to establish such a university in England or Switzerland failed, but in 1913 he not only persuaded the Zionists organization to undertake the establishment of a university at Jerusalem, but negotiated for a site on the Mount of Olives. In 1918 Dr. Weizmann, then at the head of the Zionist commission in Palestine, obtained permission from the British Government

to lay the foundation story of the university.

A plan had been made by Professor Geddes, but it would require a capital of £2,000,000. A modified scheme would require a capital expenditure of £100,000 and an annual expenditure of £50,000. It was proposed to begin with three research institutes for physics, chemistry and biology, and the study of the Hebrew language and literature. Thus the university would come into being by a process of gradual growth. Its justification would be its potential value as an instrument of why Jerusalem was the only possible seat of the university.

Jerusalem at present was not an ideal or even reasonably satisfactory home for the university. It was a primitive place, lacking in home-grown tradition of scholarship or scientific research, and everything that went to make up the background of a big university. But yet the fulfillment of this plan in Jerusalem meant the reincarnation of the Jewish intellect, which for centuries had roamed the world, and had been denied the possibility of giving of its best to the world.

# The Vital Issue

"What we have to decide is this—Are we going to continue the protective system of this country or are we not? That is the question and that is the whole question. And the great, big, necessary thing is that every voter in this country from the Yukon to Halifax knows that this is the question he or she is deciding when he or she votes in this great contest."

ARTHUR MEIGHEN.

THE vital issue in the coming election—in fact, the only issue—is the Tariff, and to every clear thinking Canadian it should be readily apparent that a Protective Fiscal Policy is absolutely essential to stability, progress and development.

Every important country in the world upholds Protection as an essential economic principle. Even Great Britain—so long the stronghold of Free Trade—has now adopted laws that constitute Protection of the most effective kind. In fact, the present policy among most nations is towards raising their tariff walls, not lowering them. In the face of these facts it would be suicidal for Canada to do exactly the reverse and discard the fiscal system which has been responsible for its progress during the past forty-three years.

Free Trade would mean death to Canadian Industry. It would also result in the immediate closing down of Canadian plants of foreign firms, with consequent additional unemployment. There are today 650 American factories alone in Canada. Similar proposed ventures would be abandoned. New capital

would refuse to come to a Country lacking adequate protection and present industrial enterprise would be promptly strangled by foreign competition.

The preservation of the home market by a Reasonable Protective Tariff is vital to both city dweller and agrarian alike—now as never before. More capital is urgently needed for the development of Canada's enormous resources, which will result in a lessening of unemployment and an increased population. More work and more workers will produce an enlarged home market for products of both city and farm, and the exodus of Canadian men and women—and the dollars they earn—will be precluded.

The United States has slammed her trade door in the face of Canadian farmers by adopting the Fordney Bill, and the farmer is consequently now even more dependent upon the home market than in the past.

Yet Crerar asks you to destroy that home market by voting for Free Trade.

King's policy—if he has one—will result in the destruction of the Tariff.

Meighen stands four square for Reasonable Protection-Protection for all the people—and asks for an overwhelming mandate to give both industry and agriculture that assurance which will spell prosperity for all. Individual prosperity depends upon National prosperity. Your personal interests and Canada's very existence hang upon your vote.

Meighen will lead us through

The National Liberal and Conservative Party  
Publicity Committee.

The new coach will relieve Shaughnessy of a lot of work and will give the intermediate team the attention it deserves. It has been long recognized that one coach was not sufficient to handle the men who turned out on the gridiron up the hill but there has always been the difficulty of securing a man of sufficient ability to prepare the men to move up to the senior squad in their later years.

Hughes will be a popular coach just as he was a popular player and later leader of the McGill rooters in many of their campaigns. As a student of "Shag" he will be teaching the men the methods that will be later used by the head coach.

Yesterday afternoon "Drum" Ross was elected captain of the intermediates. The first game of the intercollegiate series will be played with the Royal Military College team on Saturday next on the home grounds of the cadets. Home and home games will be played with them and the total score will determine the winners of the eastern section of the intercollegiate union. The winners of that section will play off with the western section, which includes all of the colleges situated in the Toronto district.

Chances are very bright for the McGill seconds to carry off the championship this year as there is an unusual number of good men who have not had the necessary experience to catch the seniors but are nevertheless good players.

Workouts will be held for the seconds under the direction of Hughes every day this week. The R. M. C. team is reported to be fast and shifty and has already defeated the Queens intermediates handily. With the McGill seniors making rapid strides towards the championship the intermediates are trying to follow in their footsteps and some hot games are expected.

# MAISONNEUVE WINS FROM MCGILL TEAM

Many Supporters Watch In-  
termediate Water Polo

Last night in the Maisonneuve swimming tank the McGill Intermediates water polo team met the Maisonneuve aggregation in their second game of the year. The College swimmers had a difficult task before them when the players took to the water. Fresh from their recent victory over La Salle the Red and White met a team, which looks to be of championship calibre. The Maisonneuve club this year are playing their first team in the intermediate league, and look like winners.

McGill began the first quarter defending the goal at the deep end. It soon became evident that the home team were the faster, and better in the shooting department. McKindsey in goal was subjected to an intermittent bombardment, and Maisonneuve chalked up three points at the end of the quarter.

The Red and White after changing ends began displaying better form, and held their opponents scoreless till the half time interval. Score 3-0.

The third period Maisonneuve scored twice, while McGill again found the Mousette. Henderson combination impenetrable. After the final quarter the score stood 7-0 for Maisonneuve, who scored twice in the session.

The result was decisive, and certainly the better team won, though the McGill line-up are to be congratulated on the showing which they put up against a very strong team. Mousette and Neasmith especially are players who would show up well in any senior company, whereas the College men are comparatively new material, who have not been working together as a team till this year.

The line-up:		McGill	
Maisonneuve		Goal	
W. Aird	.....	G. McKindsey	Defense
C. Mousette	.....	I. Forsythe	.....
J. Henderson	.....	W. D. Munro	Centre
A. Neasmith	.....	G. Vickerson	Forwards
G. Davis	.....	A. Gravel	.....
D. Mun	.....	G. Ross	.....
The officials were:			
Time keepers, R. Cummings, M. A. Gaboury.			
Referee, G. Moore.			
Judge of Play, W. Foran.

# WRESTLERS HELD GOOD PRACTICE

Not Enough Men Out for  
Advanced Class.

Yesterday evening the wrestlers held their initial work-out in the hall-room of the Union. The beginners started their practice at about five fifteen. The names of all those who intend to wrestle must be given to Dave McKeen or otherwise they are liable not to get their attendance.

The newcomers at the game were lined up in two ranks and shown some of the elementary holds of wrestling, and how to approach a man. They then practised some of the simpler ones, such as the waist hold and the cross buttock, on each other. Coach Smith looked on and corrected their faults. A fair number turned out, and were, on the whole, a husky looking lot, most of the men being in either the 135lb. or 145lb. class. However, a great many more men are needed out, especially in the heavier weights. Now is the time to turn out and learn something about wrestling, for in a little while it will get too late. If it is at all possible, inter-faculty assault-at-arms will be held, but if this is to be done more men must be out.

The advanced class started their practice at about quarter past six and after a short talk by Mr. Smith the whole class went onto the mats and commenced by doing a hardening up exercise. Only about twelve turned up in this class. There are surely more men around the college who wrestled last year, and who intend to do so again this year. All these men are asked to come out as soon as possible so they can commence their training properly. After about fifteen minutes or more of exercises the mat artists indulged in short bouts. In a month or two Coach Smith hopes to have the men in good enough condition so that they can wrestle twenty minutes at a stretch without being tired.

Another practice will be held on Wednesday evening at the same hours, and everybody that knows something about wrestling or who would like to learn the game is urged to turn out to the next practice with the necessary equipment.

# MEDICINE IS VICTOR OVER ARTS - LAW

Gordie Webster and Caldwell  
Were Both Carried Off.

SCORE 12-5.

Medicine Had Edge Through  
First Three Quarters

Yesterday afternoon, in a chilling rain, the Medicine Rugby squad whitewashed the Arts and Law combination to the tune of 12 to 5, making their lead of 7 points in the first quarter. A great deal of this may have been due to the inexperience of several of the Arts men, who were out for the first time, and did not even know their signals well.

Medicine had a markedly superior team, heavier and faster and surer of themselves. Their confidence and team play enabled them to go in at the beginning with the idea that they were going to come out on top, and as Arts lacked both qualities at the first part of the game; naturally for a time it was one-sided. Right from the start they forced their play, netting one rounce, a touch and a convert in the first quarter. Score 7-0.

Throughout the second quarter Medicine kept the edge on the game, but Arts were able to hold them from scoring. It was by no means easy work, and the quarter ended with the murderous Meds. thirsting for blood, scarcely three yards from their objective.

The third quarter showed a decided improvement in the Arts game, but Medicine by no means weakened. The latter scored another touch, bringing the score to 12-0.

It was in this quarter that Gordie Webster was carried off the field, unconscious from a jolt in the head. This capped a blow in the stomach, which had previously made him groggy, but he had gamely kept his place at inside for Arts. Caldwell, of Medicine, was also hurt and carried off the field.

In the last part of the last quarter Arts turned the tables, and pushed Medicine hard. The end saw brilliant plays, especially two fifty yard runs by Pierce, who scored a touch, bringing the score to 12-5.

The line-up was as follows:—

Arts and Law.	
Outsides—Branch and Ogilvie.	
Middle—Eliot and Colin Webster.	
Insides—Hamson and Webster.	
Quarter—Gardiner.	
Scrim—McDermott.	
Backs—Pierce, Chauvin and Falconer.	
Flying Wing—Anderson.	
Spare—Chave.	
Medicine.	
Outsides—Chalmers and Fullerton.	
Middles—Sloane and Abey.	
Insides—Schuman and Urquhart.	
Quarter—Roche.	
Backs—Boyle, Grassick and Chemson.	
Flying Wing—MacDonald.	
Spare—Madden, Hamilton.

# MEETING TO-DAY OF MCGILL A.A.

Union, 5.15—All Club Presi-  
dents Must be There.

A meeting of the Athletic Association will take place in the Union at 5.15 p.m. sharp to-day.

The Presidents of all athletic clubs are reminded that it is their duty to be present. There is a great deal of very important business to be transacted, and it is essential that every president be on hand. It will also be thrown open to all students.

This meeting will be one of the most important meetings of the year, and will afford a splendid opportunity for any student, who is interested in the administration of the athletic association, to become familiar with its details.

"Dearest, do you know how much I love you?"

"No, lover, but I know how often!"

# MED'S WORKOUT WEDNESDAY 4. P.M.

Full Turnout of Players

INTERCOLLEGIATE FOOTBALL POPULAR.			
The popularity of intercollegiate football as a fall pastime is shown by the rapid increases in the numbers attending the games every year. Since the resumption of sport following the war, the game has increased in popularity until this fall the grounds were packed to capacity notwithstanding the construction of the additional stand.			
The paid attendance at the games during the three years was:—			
	1919.	1920.	1921.
Toronto Games	6,003	9,858	12,110
Queens Games	2,542	2,496	7,301

# UNIVERSITY FOR JERUSALEM PLAN

Still Remains a Dream of the  
Future.

"The Jerusalem University is an unfulfilled project, that as yet exists only in the imagination," said Leon Simon when speaking recently at the Sociological Society, Belgrave Road, on "The Hebrew University in Jerusalem."

As early as 1902, Mr. Simon said, Dr. Weizmann had pointed out in a pamphlet the necessity for a Jewish university in view of the restrictions that then prevailed in continental schools against the Jews. His project to establish such a university in England or Switzerland failed, but in 1913 he not only persuaded the Zionists organization to undertake the establishment of a university at Jerusalem, but negotiated for a site on the Mount of Olives. In 1918 Dr. Weizmann, then at the head of the Zionist commission in Palestine, obtained permission from the British Government

to lay the foundation stone of the university.

A plan had been made by Professor Geddes, but it would require a capital of £2,000,000. A modified scheme would require a capital expenditure of £100,000 and an annual expenditure of £30,000. It was proposed to begin with three research institutes for physics, chemistry and biology, and the study of the Hebrew language and literature. Thus the university would come into being by a process of gradual growth. Its justification would be its potential value as an instrument of was why Jerusalem was the only possible seat of the university.

Jerusalem at present was not an ideal or even reasonably satisfactory home for the university. It was a primitive place, lacking in home-grown tradition of scholarship or scientific research, and everything that went to make up the background of a big university. But yet the fulfillment of this plan in Jerusalem meant the reincarnation of the Jewish intellect, which for centuries had roamed the world, and had been denied the possibility of giving of its best to the world.

# The Vital Issue

"What we have to decide is this—Are we going to continue the protective system of this country or are we not? That is the question and that is the whole question. And the great, big, necessary thing is that every voter in this country from the Yukon to Halifax knows that this is the question he or she is deciding when he or she votes in this great contest."

ARTHUR MEIGHEN.

THE vital issue in the coming election—in fact, the only issue—is the Tariff, and to every clear thinking Canadian it should be readily apparent that a Protective Fiscal Policy is absolutely essential to stability, progress and development.

Every important country in the world upholds Protection as an essential economic principle. Even Great Britain—so long the stronghold of Free Trade—has now adopted laws that constitute Protection of the most effective kind. In fact, the present policy among most nations is towards raising their tariff walls, not lowering them. In the face of these facts it would be suicidal for Canada to do exactly the reverse and discard the fiscal system which has been responsible for its progress during the past forty-three years.

Free Trade would mean death to Canadian Industry. It would also result in the immediate closing down of Canadian plants of foreign firms, with consequent additional unemployment. There are today 650 American factories alone in Canada. Similar proposed ventures would be abandoned. New capital

would refuse to come to a Country lacking adequate protection and present industrial enterprise would be promptly strangled by foreign competition.

The preservation of the home market by a Reasonable Protective Tariff is vital to both city dweller and agrarian alike—now as never before. More capital is urgently needed for the development of Canada's enormous resources, which will result in a lessening of unemployment and an increased population. More work and more workers will produce an enlarged home market for products of both city and farm, and the exodus of Canadian men and women—and the dollars they earn—will be precluded.

The United States has slammed her trade door in the face of Canadian farmers by adopting the Fordney Bill, and the farmer is consequently now even more dependent upon the home market than in the past. Yet Crerar asks you to destroy that home market by voting for Free Trade.

King's policy—if he has one—will result in the destruction of the Tariff.

Meighen stands four square for Reasonable Protection-Protection for all the people—and asks for an overwhelming mandate to give both industry and agriculture that assurance which will spell prosperity for all. Individual prosperity depends upon National prosperity. Your personal interests and Canada's very existence hang upon your vote.

Meighen will lead us through

The National Liberal and Conservative Party  
Publicity Committee.

## MANDOLINISTS' ENGAGEMENTS

To Play at Commercial So-  
ciety and Conversat. —  
Practice To-night.

The Mandolin Club is going strong. It has just the right number now. Besides the regular mandolin players there are two saxophones, a clarinet, a cello, and the drums, which gives McGill a musical organization that would be hard to beat anywhere. The men are all showing lots of pep and believe that already mid-season had come, instead of it being just the beginning of the year.

There will be two engagements this week. To-night, after the practice a few of the club are going up to the Commercial Society meeting at the Union to entertain the Commerce students in between their deliberations, and the other events on their programme. Then at the Conversat. the Club will also hold forth. This is coming off on Wednesday night. All the members who play at this fixture are certain of a good time, as well as the benefit arising from experience of playing in public.

All members are expected to be out at the practice to-night, regular time, regular place. This will be the last weekly rehearsal. After to-night the club will practise only once every two weeks, enough to keep them well in trim and to enable them to learn a few new selections.

Each man is requested to bring his Song Book with him to-night, so that some of the McGill songs may be learned.

## SOCIETY FORMED IN PARIS, FRANCE

To Aid Women Students  
Studying in France's  
Capital.

It is interesting to know that a society has lately been formed in Paris by University women to help women students of other countries who come to Paris to study. This society is called "Societe Universitaire des Amis de l'Etudiante" and is an association which is publicly recognized as an aid to all women students. The aim of the society is to find lodgings, meals, social clubs and medical service for those who go to a foreign country are "strangers in a strange land." The society is anxious to help young women students from the start, and have sent to the Royal Victoria College a poster giving full information so that any girl planning to study in France next year can obtain information well before hand. The warden or Mlle Tonnen will be very glad to supply details and set any enquirer upon the right path.

HAIRCUT OR SHAVE?

We see the Daily ran a line About the bobbed-haired cuties; And while of course, it's very fine; And they, no doubt, are beauties, There's history behind this act Concerning every human;— A signed and sealed agreement pact And signed by "Everywoman".

It seems Eve's brain was once the port Of wishes strange and awful; Sighed she: "I want my hair bobbed short"; Quoth Adam: "Tis unlawful; 'You've got your dresses to the knee, You take your toll of kisses; And that, I think you will agree, Is 'nuf for any Mrs.'"

## THE TORONTO TRIP

Students who intend to go to the McGill-Varsity game on Saturday next should fill out the following blank, stating whether they want railway tickets alone, or railway and berth tickets. Two may use a single berth if they desire to do so. If sufficient students signify their intention of going, special cars, or a special train will be secured for them. The rooters will leave Friday night and return Saturday night.

Clip out the coupon and hand it to the hall porter in the Union. Those handing in the coupons must consider themselves under an obligation to take the reservations made for them.
